Born and raised in Fairbanks, Alaska in 1987. I Graduated from North Pole High School. I Started building custom homes in 2005 and raised two kids in the middle of all the home building. I am the current IABA President, and have been an IABA member for over a decade, State Association Secretary, Local NAHB Delegate and NAHB Committee member. I am focused on workforce development to encourage the next generation to keep building a better Fairbanks. And while I do love building homes, I'd typically rather be catching a halibut or hitting a golf ball!
